Activ LEAK SENSE
LEAK DEFENCE TECHNOLOGY

Smarter Plumbing Starts Here.

The Ultimate Leak Defence Technology

Protect properties from unexpected water damage with Activ Leak Sense – a state-of-the-art ultrasonic leak detection system designed to safeguard residential environments.

Using advanced ultrasonic sensing technology, Activ Leak Sense continuously monitors water flow, detecting leaks with precision before they become a serious problem. Whether it's a slow, hidden drip or a sudden burst pipe, the system responds intelligently to prevent flooding and minimise damage.

Can detect even the **smallest microleaks**

Know about a **burst pipe almost instantly**

Avoid hidden floods with smart flood sensors in service areas

Product Range
Description: ActivLeak Sense Leak Prevention Device
Code: ALS01

Description: Activ Leak Sense Flood Sensor X1
Code: ALFS01

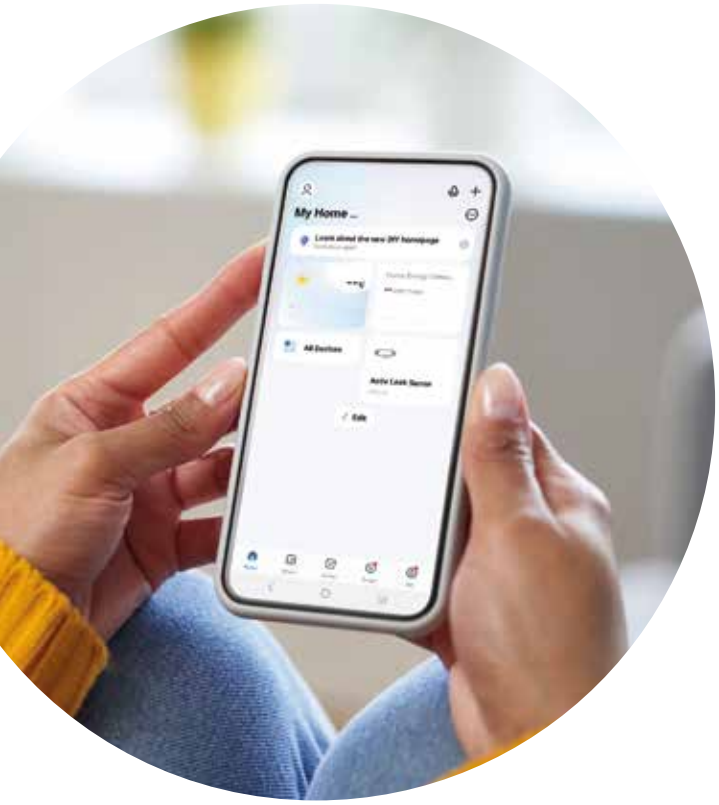
Activ LEAK SENSE
LEAK DEFENCE TECHNOLOGY

Features

- Live data feedback - Monitoring flow, pressure & temperature
- Remote ON/OFF water isolation
- Connect up to 8 remote flood sensors



App Interface

- Live Flow Rate Data
- Frost Protection Warning
- Water Usage Calculator
- Live Pressure Data
- Live Water Temperature
- Programmable Parameters
- IOS & Android Compatible
- Remote ON/OFF water isolation - Connect up to 8 remote flood sensors

Compatible with Smart Life App

Download on the App Store GET IT ON Google Play

Technical Specification

Maximum Operating Pressure:	8 Bar
Inlet Temperature Range:	4 - 45°C
Ambient Temperature Range :	-10°C - 50°C
Maximum Flow Rate:	3600L/H
Protection Class:	IPX4
Power Supply:	230v Plug Transformer - 12v
Battery Backup:	4 x AA Battery
Plug Spec:	G Type
WiFi Connectivity:	2.4GHz
Minimum Flow Detection:	0.033 l/min
Flow Parameter Range:	2 - 990 Litres
