

Features and Benefits:

ActivFlo Solo is the brand new Water Conditioner to be added to the ActivFlo range of products. Solo has been specifically designed and engineered for independent component protection, making it the ideal solution for installations that have lower flow requirements than normal, or have space limiting install footprints. Featuring ActivFlo's revolutionary catalytic water method, Solo is the perfect product to help fight against limescale build-up in fluid systems.

Features and Benefits:

- ***Designed for independent component protection***
- ***Stainless steel housing***
- ***No power supply required***
- ***Fit and forget installation***
- ***Helps to maintain the operation and efficiency of equipment on fluid systems***
- ***15 Year manufacturers warranty***
- ***Small installation footprint***
- ***Perfect for showers, dishwashers, heaters, fountains***
